## Landscaping

### Decking

A large deck area on split levels leading to the lawn area of the garden.

A large floating decked area with shaded area. This deck incorporates deck lighting and raised flower beds. One of our more complex decking projects.

## Paving

New paved area including retaining wall for raised flower beds.

Paved are with Pergola and cascading water feature.

Main paved are is edged with rustic block paving.

## Water Features

A simple water feature using a large pot.

Add lights for a totally relaxing and enjoyable atmosphere.

A contemporary water feature added as a focus point to a large garden.

## Light & Sound

Adding simply lighting with contrasting colours add a spectacular new look to any garden at night.

Lights were built into the wall of this sunken seating area.

## Fencing

### Trellis

A simple but effective trellis fence

### Post & Rail

Half round post & rail fence, ideal for paths, fields and paddocks.

## Panel

Panel fence finished with trellis.
